---

## OBJECTIVE:

Highly motivated computer science graduate seeking a challenging position in the IT sector. Offering strong skills in Java, JSP, Servlet, Spring Boot, PostgreSQL, MySQL, C, C++, HTML, CSS, and a passion for video and photo editing. Committed to continuous learning and personal growth.

---

## SKILLS

- Programming Languages: Java, C, C++
  - Frameworks: Spring Boot
  - Software Tools: Photoshop, Microsoft Excel, Microsoft Word
  - Web Development: JSP, Servlet, HTML, CSS
  - Databases: PostgreSQL, MySQL
- 

## EXPERIENCE

### Virtual Internship - Accenture, March 2023

- Participated in a virtual internship program at Accenture, gaining practical knowledge and skills in software development processes.
  - Learned and applied debugging algorithms to identify and fix software issues.
  - Conducted unit testing to ensure the functionality and quality of developed software.
  - Developed an understanding of securing software development, including data privacy and protection measures.
- 

## PROJECT

### Personal Portfolio Website (Java, Servlet, JSP, html , css):

- Proficient in Java, Servlets, JSP, HTML, and CSS for web development projects.
- Developed a personal portfolio website showcasing projects, skills, and experiences.
- Utilized Java Servlets for dynamic content generation and smooth navigation.
- Leveraged CSS for creating a visually appealing and user-friendly design.

### Parlour Website (Java, Servlet, JSP, MySQL):

- Designed and developed a fully functional website for a parlour business.
- Implemented a login page with secure user authentication using Java servlets.
- Integrated MySQL database to store user credentials and other relevant data.
- Created a personalized welcome page displaying a warm greeting and the user's name.
- Implemented an about page featuring detailed information about the parlour.
- Ensured user convenience by adding a logout button across all pages.

### Temprature Converte (HTML , CSS , JavaScript):

- Developed a temperature converter web application using HTML, CSS, and JavaScript in Visual Studio Code.
  - Implemented a user-friendly interface allowing users to convert temperatures between Fahrenheit, Celsius, and Kelvin scales.
  - Ensured a responsive design for seamless use across different devices.
  - Acquired valuable experience in working with VS Code, JavaScript, and web technologies.
- 

## EDUCATION & CERTIFICATIONS

### Bachelor of Science in Computer Science

Vikram University, Ujjain , Madhya Pradesh Year of Graduation: 2023

### Diploma in Computer Application

Makhanlal chaturvedi national university of journalism and communication BHOPAL  
Year of Completion: 2021

## EXTRACURRICULAR ACTIVITIES

- Classical Dance:** Winner of the college classical dance competition, displaying creativity and dedication.
- Quiz Competitions:** Participated in quiz competitions during college and school,
- Debate Competitions:** honing public speaking
- Badminton:** Participant in local badminton tournaments.
